**OMAHA, Neb. – Aug. 17, 2017** – [Jet Linx Aviation](#) introduces its newest partner, Valor Agency, to join the private aviation company’s [Elevated Lifestyle](#) client benefits program. This program provides Jet Linx members with exclusive rewards, upgrades and access with partners ranging from health and fashion to spirits and travel. Clients who fly 25, 50 and 100 hours a year earn access to an enhanced tier – Elevated Lifestyle Plus (EL+) – offering even more value from Jet Linx’s partners.

“With the continued increase in international travel and the sometimes uncertain nature of our world today, the peace of mind offered by Valor makes it a natural addition to the Elevated Lifestyle program,” said Jamie Walker, Jet Linx President and CEO. “We are confident that our clients will find value in the medical and safety services they can provide.”

[Valor Agency](#) is comprised of well-traveled experts who provide around-the-clock emergency medical and security services globally. The Agency has created a Jet Linx Valor Card Membership level exclusively for Jet Linx clients, including the standard benefits of a Valor Card Elite membership and more. With this card, travelers will have the benefit of contacting Valor Agency’s team of specialists, all of whom have diverse backgrounds in personal security, risk management, crisis management, and global travel. Members will also have access to tracking and GPS based devices along with other technological duress devices Valor offers. When flying around the world, Jet Linx Valor Card holders will have access to superior advice and emergency medical or personal safety support at any time for protection and confidence when traveling abroad.

“Our customization allows our clients to travel anywhere in the world and know help is only a call or click or away for any medical or personal safety reason,” said Jade Pender, Valor Agency Executive Vice President.

The Elevated Lifestyle program allows Jet Linx to offer added value at every turn, with more than 20 partnerships that the company has developed in just two years since the program was conceived. The platform continues to expand, providing members and aircraft owners with exclusive benefits and highly curated experiences that reflect the same level of customization that is at the core of the company.
